4bed/4bath; 2444 sqft; .64acre

This home is one of a kind and a must see! Not far from the heart of Homerville, the property is in a peaceful and nice neighborhood. The architectural details are stunning with the exposed beams and interior brick walls. The main living area in the heart of the home has walls that do not go all the way to the raised ceiling so the exposed beams are visible from all 4 areas, giving a very open and grand feeling. There have been rooms added over the years so there is now a large suite that can be used as a master or mother-in-law suite. 3 of the 4 bathrooms have stand up tile showers while one has the full tub with shower. The back yard is fenced in as a great play area for kids and/or pets with woods on the back side and an empty lot on the right providing extra privacy. People that may have ties to Waycross and Valdosta, whether it's for work, family, or good friends, this location is a perfect halfway point so you can enjoy both of these great cities!
